

## **Declaration of Work Distribution for COMP 3380, Project Part 2**

We, the members of Group 21, attest that we worked collaboratively and divided the work equally among ourselves. Each member contributed an equal amount of effort and time to the completion of this assignment, and we mutually agreed on the division of tasks. As such, we all agree that the percentage of contribution by each member is 33.33%. All members of our group have signed this statement to confirm our equal contributions.
